Planning the grid for distributed energy resources

The Clean Coalition, in partnership with Fierce Energy, hosted a webinar on May 14 to discuss how utilities can plan their grid for distributed energy resources. We were joined by executives from PSEG Long Island and Enphase Energy.

The power of local energy

Most decisions about where to purchase new electricity fail to account for the significant costs of long-distance transmission. Once these hidden costs are considered, local energy generation offers an economically attractive alternative to centralized generation.
